

Avoid the Dash to the Dashboard

Dashboard infotainment systems allow drivers to stay connected. But just because we can do something, **DOESN'T MEAN WE SHOULD**.

STOP

IT'S MORE DISTRACTING

THAN YOU THINK

Drivers talking on handheld or hands-free devices can

FAIL TO SEE 50% OF THEIR SURROUNDINGS

80%
OF DRIVERS MISTAKENLY
BELIEVE hands-free devices
are safer than handheld

MORE THAN 30
STUDIES show hands-free devices don't make drivers any safer — the brain remains distracted by the conversation

3º/o OF U.S. DRIVERS

believe hands-free devices must be safe if built into vehicles

Hands-free features in dashboards can increase mental distraction

INFOTAINMENT IS ABOUT CONVENIENCE - NOT SAFETY

The following actions don't make us safer drivers:

Talking on the phone

Checking email

Posting a social status

Ordering take-out

Vehicle techologies should prevent crashes, not increase their likelihood.

CONVERSATIONS WITH OUR CARS

Studies show using voice to text is **MORE DISTRACTING THAN TEXTING** by hand.

You: "Text Mike."

Car: "Begin Speaking."

You: "Thanks Mike, your order arrived yesterday."

Car: "Thanks Nike, Yoder arrived yesterday."

You: "Cancel! Text Mike."
