

You can avoid injury from slips, trips, and falls in your workplace if you:

DON'T

FALL

DOWN on the JOB!

DO

Clean up cluttered or obstructed work areas.

Maintain floor surfaces and clean up spills and splashes immediately.

Keep work areas well lit.

Wear closed-toe shoes with slip-resistant soles and low heels.

Watch for deposits of water, ice, food, oil, grease, sawdust, soap, or other debris on work surfaces.

Report any blind corners, problem floor surfaces, or hazardous areas to your supervisor.

DON'T

Take shortcuts, especially through machinery areas.

Engage in horseplay.
